

Afterschool Programming Health and Safety Protocol

Students will be instructed to **wash their hands with soap and water** for at least 20 seconds before the afterschool program begins.

We will also have **hand sanitizer and wipes** to be used while outside without access to public restrooms. We will clean and disinfect objects between usage and/or students will wear disposable gloves provided.

Temperatures will be taken at check-in with a touchless thermometer.

Those with temperatures of 100.4 or higher will not be allowed to participate in the afterschool program that day and should be picked up by a parent.

All afterschool programming has been scheduled to take place **OUTSIDE**.

Students will be asked to **wear a mask** for non-active type activities.

We will **limit the number of participants** and maintain **social distancing** of at least 6 feet throughout the program.

If snacks are provided, they will be **individually wrapped** and/or sealed.
